AUTO SHOW

This Service & Information Manual contains material which is vital to the successful planning, marketing and management of your display at the Orange County International Auto Show. Failure to read this manual and respond promptly in ordering services could result in higher rates.

The services and contractors listed in this manual are for your convenience. Show management suggests that you employ the services of GES, this year's official show contractor, for your greatest efficiency and ease, as they are familiar with the show and work schedule. All independent contractors must coordinate their work schedules with GES and comply with all guidelines and insurance requirements.

Please note that insurance policies must provide coverage for all dates from move-in through move-out and also include all required information listed in detail in the Important Rules and Requirements section of this manual. All exhibit set up contractors must submit a correct and complete policy at least thirty (30) days prior to the first move-in day of the show or they will not be permitted to work in the Anaheim Convention Center.

The most up-to-date exhibitor information, including CAD floor plans (DWG format) and all GES forms, will be available for download at www.AutoShowOC.com.

It is important that you review this manual with those individuals or agents having responsibility for your participation in the show. Motor Trend Auto Shows thanks you for your cooperation. We wish you a most successful Orange County International Auto Show.

Move-In & Set-Up Information

Carpet Installation, Freight Deliveries & Exhibit Set-Up

In order to allot as many straight time hours as possible for exhibit set up, a detailed move-in schedule has been developed. This requires the support and cooperation of exhibitors, freight carriers, and exhibitor-appointed contractors for carpet and/or exhibit installation. The display supervisor should be on-site at the start of the freight target time in order to direct crate placement. Labor for exhibit installation should be ordered no sooner than two hours after the beginning of the targeted time for freight deliveries as noted on the schedule. **All crates must be emptied and labeled by 6 p.m. Tuesday, October 1** in order for GES to remove them from your exhibit space. Any request for an earlier move-in than specified on the schedule should be directed to Show Management. **All exhibit area set up work must be completed by 8 p.m. on Wednesday, October 2, 2019.**

NOTICE: Failure to adhere to the timelines designated in the following schedule, or failure to provide an electrical order with detailed floor plan 30 days prior to move-in could result in **off-target surcharges** on electrical and material handling services.

Vehicle Clean-Up Personnel

Vehicle clean-up personnel will only be admitted with proper ID prior to the opening of the show each day - Wednesday through Friday, beginning at 8 a.m.; Saturday and Sunday, beginning at 7 a.m.

In order to retain our first-class show appearance and also remain within the guidelines set for us by the auto show committee, all clean-up personnel must dress appropriately to enter the show. An acceptable professional appearance would include the following: coveralls, company golf shirts or t-shirts and clean blue jeans or slacks. A uniform appearance for all employees representing your company is preferred. Ripped shirts, printed t-shirts, dirty jeans, jeans with holes and dirty sneakers are not acceptable show attire.

Important Rules & Requirements

Aisles for Emergency Purposes

The Fire Department requires that all exhibitors leave 1 foot of space bordering every public aisle and 2 feet of space on any border of their exhibit that adjoins another display area. This will allow a 4-foot emergency aisle running between each space.

Alcoholic Beverages & Food Items

Alcoholic beverages and/or food may not be brought into the Anaheim Convention Center.

Exhibitor Dress Code

All personnel working within your exhibit area should wear suitable business attire. Exhibitors not dressed accordingly will not be admitted into the show.

Fire Regulations

Exhibitors must comply with all federal, state and local fire codes which apply to places of public assembly, in particular, Chapters 5, 8 and 31 of the Life Safety Code. All curtains, buntings, draping, etc., of any kind must be flameproof. Special care should be taken not to block or obstruct any fire hose or fire extinguisher cabinets, fire pull boxes or entrances and exits within the Anaheim Convention Center.

Vehicle Requirements

Under no circumstances may display vehicles be placed in front of any fire or public entrance and exit doors. Special attention should be given to keeping these public doors free of obstruction by any show vehicles. The same holds true for the construction of displays, staging, walls, turntables, signs, etc.

Battery Cable - All vehicles displayed in the show must have the positive battery cable disconnected and taped using UL approved plastic electrical tape. A special plastic bag must then be applied and taped. A 4 1/2" x 6" 3 mil. plastic bag with fastener will be provided by security officers as the vehicles enter the building.

Gas Tank Level – Vehicle gas tank levels need to be 1/4 tank or five (5) gallons, whichever is less. All vehicles will be checked as they enter the convention center to make sure that the gas level requirement is correct. If the gas level exceeds the requirement, the vehicle will not be permitted to enter the building.

Gas Cap Requirements - If the gas cap door can be opened from outside your vehicle, the vehicle must have a locking gas cap. If the gas cap door must be unlocked from inside your car, then a locking gas cap is not necessary but the standard inside gas cap must be taped.

Important Rules & Requirements

Vehicle Requirements (cont.)

Prior to the public opening, all vehicles will be checked to see that all gas cap and battery cable requirements have been met.

NOTE: *A Fire Marshal will be on duty throughout all public hours of the auto show.*

AC/DC Converters - Cars using AC/DC converters **must have the security system fuse disconnected** to prevent the public from setting off vehicle alarms.

Vehicle Access & Cleaning - All show vehicles, except factory display models must be unlocked during public show hours. All vehicles must be waxed or wiped daily.

Exhibit Blueprints

All vehicle exhibitors participating in the Orange County International Auto Show must provide a scale electrical blueprint of their display to Motor Trend Auto Shows, Trade Show Electrical (TSE), and Smart City Networks by **August 30**. These blueprints will be used by TSE and Smart City Networks to install electric and telecom lines prior to carpet installation. **The height of the display properties and the location of electric and phone lines must be marked on the plans.**

MTAS blueprints must be e-mailed in DXF or PDF format to:

- Steve Freeman: Steve_Freeman@motortrend.com

Exhibit set up may not proceed without a show management approved floor plan. Failure to submit detailed electrical placement floor plans will result in off-target surcharge.

Signs, Banners & Truss Lighting

Any hanging signs must be framed and pre-approved by show management. Truss lighting is permitted. GES/TSE have jurisdiction on all installation work.

Plastic letters, shoe polish and homemade signs may not be used on any vehicles or in any area of your display or booth. Decorations, signs, banners, etc., may not be taped, tacked, stapled or otherwise fastened to ceilings, walls, doors, painted surfaces or columns.

All signs must be professionally manufactured and have a finished surface on all edges and sides. Signs cannot block the view of other exhibitors. In the case of a complaint, the decision on whether a sign remains or must be relocated will be made by Show Management.

Important Rules & Requirements

Display Placement

The maximum permissible height for displays in Halls B-D is twenty-four feet (24'). Exhibitors should contact show management if they have any questions regarding ceiling height.

Placement of exhibits cannot interfere, block or extend into other exhibits or block emergency exits. The fire boxes and strobe lights on any pillars within a display must remain accessible and visible. An exhibitor could be required to change the location or configuration of their exhibit or vehicle placement should they interfere with the rights of other exhibitors. All exhibits must be capable of standing by themselves and no supporting wires from the ceiling or draped walls will be permitted.

All exhibits must have a finished backside.

Exhibitor Presentation Restrictions

An exhibitor may not work, sell or distribute literature from any area other than the space rented by the exhibitor.

All public address systems must be kept to a volume so as not to disturb your neighboring exhibitors.

Under no circumstances are helium balloons or adhesive-back decals to be given away or permitted to be used in the convention center. Any cost incurred by the Anaheim Convention Center from the use or removal of these items will be charged to the exhibitor.

Music at the Show

Due to ASCAP and BMI licensing restrictions, there cannot be any music played in any display at the Orange County International Auto Show. Jingles and commercials produced by a manufacturer, that are the property of the manufacturer, can be used throughout the show.

Background music through the use of a television, radio, stereo, cassette tape, or laser disc cannot be used, as this is an infringement on the original copyright.

If you have any questions or wish to obtain a license from ASCAP or BMI, please contact either organization.

Liability

Each exhibitor is entirely responsible for the space allotted him through his contract. Each exhibitor agrees to reimburse the Anaheim Convention Center for any damage to the floor, ceilings or walls within his contracted area.

The Anaheim Convention Center, Orange County Automobile Dealers Association, GES and Motor Trend Auto Shows assume no liability or responsibility for any loss or theft. Therefore, it is the exhibitor's responsibility to provide their own insurance coverage for vehicles, exhibits and materials.
